# Coolant Filtering & Inspection System

Dirty Coolant is the #1 Cause of cooling system damage

---

**Best, easiest cleaning System you can buy**

---

**Cleans Coolant of harmful deposits and dirt**

---

**Regulates system pressure at the heatercore and throughout the system**

---

**Easy, 10 minute installation**

---

US Patent #5,649,591

# Your cooling system is destroying itself!

The Vehicle Enhancement Labs Coolant Filtering and Inspection System can save it!

- **Cleans thoroughly and Instantly**
- **Easy to install**
- **Stops debris damage**
- **Won't cause overheating when clogged**

High pressure (40 to 50 pounds) and dirty coolant can destroy your cooling system. Under this pressure every piece of rust and dirt in the system bombards metal, eating it away. The **Vehicle Enhancement Labs Coolant Filtering & Inspection System** Stops it - right before your eyes! Saves hundreds of dollars!

**Patented Filter** - Never before has there been a cooling system filter that lets you actually see dirt and debris being eliminated instantly. Now you can - with the Ve-Labs Coolant Filtering & Inspection System! The system can be inspected instantly and removed for cleaning with ease using a screwdriver.

**Looks Great** - Chrome cover with stainless in-line filter.

**Safe** - The Ve-Labs Coolant Filtering & Inspection System won't clog the cooling system causing overheating, even if the filter is clogged.

The Ve-Labs Coolant Filtering & Inspection System prolongs the life of your engine, radiator, heater core, water pump, and other cooling system components.
